

Full Stack Developer – Job Description

Afford Medical is a leader in the medical devices sector in India with an emerging presence in other emerging markets. We are in the process of revolutionising this sector and are looking for a Front-End Developer who is eager to make an impact. This role is an opportunity for you to work in an early-stage start-up environment and play a vital role in not only shaping the future of new platforms and products but also an opportunity to learn and grow in a fast-paced ecosystem.

Responsibilities

- Build highly-reliable and scalable products in full-stack Go Lang leveraging its features and flexibility
- Build backend platform components to function with high throughput and low latency.
- Work in a fast-paced, collaborative environment ensuring deliverables in a timely manner
- Possess a strong passion to make an impact as a programmer and an eagerness to learn and work on new tech stacks

Required Skills

- Experience in building and scaling resilient backend services
- Prior hands-on experience on building scalable web applications on GoLang/MERN stack(MongoDB, ExpressJS, ReactJS, NodeJS)
- Experience in Agile methodology
- Experience in version control like Git
- Proficiency in Dockerization, Kubernetes, CI/CD
- MS Azure
- SQL databases
- Experience in designing RESTful, scalable, highly responsive APIs
- Experience in testing frameworks
- Experience in Caching and Redis
